Thanks Don.

We will also share this letter with Terrance Powell at LA County, since the issues about bathroom letters/access is a County one.

We can only regulate time, place and manner when it pertains to public safety.

I can alert street services, street investigation division about these trucks on these streets and they can go out to see what violations are occurring. Photos are very helpful too.

Please forward the attached to Bill and others in your office as appropriate. We sure could use some support for improved regulation at the Council level. It is just grossly unfair for the food trucks to profit from the investment of assessment monies that BID property owners and businesses have made in making their districts desirable!

Thanks Nate.
